Title of Project Study: **GARBAGE-GUARD: DEVELOPMENT OF COMPUTER VISION FOR CREEKS GARBAGE DETECTION USING CONVOLUTIONAL NEURAL NETWORK**

Course/Section: _____

Names of Students: **BRIAN JAY CELESTE, GENESIS WALTER D. REYES II, JADE C. GUNAYAN, KING PERTH G. PEPITO, RODEL S. BANOGBANOG**

Name of Rater: **JONEL R. MACALISANG (Adviser)** **Date:** **November 11, 2026**

Research Paper Rubric

	(5)	(4)	(3)	(2)	(1)	Rating
Timeliness	Consulted and submitted before the scheduled time	Submitted the paper on the schedule due date	Submitted the paper on 1-2 days after the scheduled date	Rarely consulted regarding the paper. Submitted the paper 3 days to a week after the due date.	Did not consult with the adviser and more than a week late on the submission of the paper.	
Writing Style and Sentence construction	Researcher's argument is strong; precision in tone, sentence structure, grammar and word choice	precision and variety in sentence structure and word choice	limited, but mostly correct, sentence structure variety and word choice	several awkward and/or unclear sentences; problems with word choice	no apparent control over sentence structure and word choice	
Focus & Content	The paper clearly shows the research gap. The statement of the problem is clear, and the objectives are well-grounded on the introduction and the statement of the problem. The objectives are clear, correctly stated and suitable for the thesis of the program. The conceptual framework appropriately corresponds to the scope of the project. The significance of the study is clearly described and adequately connected to the objectives. Other new and related technologies and global developments are discussed. Review of literature is extensively done, utilizing several sources. Synthesis is provided to integrate the literature, with implications to the proposed project. Research method is excellently done, with clear details of the procedures to be undertaken.	The paper clearly shows the research gap. The statement of the problem is clear, and the objectives are well-grounded on the introduction and the statement of the problem. The objectives are clear, correctly stated and suitable for the program. The conceptual framework appropriately corresponds to the scope of the project. The significance of the study is clearly described and adequately connected to the objectives. Review of literature is inclusively done with several sources. Synthesis is provided to integrate the literature. Research method includes relevant details of the procedures to be undertaken.	The paper shows the research gap. The statement of the problem is clear, and the objectives are related to the introduction and the statement of the problem. The objectives are suitable for the BT program. However, the theoretical framework and statement of the hypothesis do not fully correspond to the scope of the project. The significance of the study is not clearly described and inadequately connected to the objectives. There is a review of literature but missing relevant information from printed sources and related studies. There is a synthesis provided but could still be improved. Research method has some important details but could still be developed.	The topic proposal inadequately shows the research gap. The statement of the problem is not clear, and the objectives are only partially related to the introduction and the statement of the problem. The objectives are suitable for a thesis in a Master of Science degree program. The theoretical framework and statement of the hypothesis do not appropriately correspond to the scope of the project. The significance of the study is not clearly described and inadequately connected to the objectives. Review of literature lacks relevant information and structure. There are more online sources than, printed sources. There are very few related studies. There is an attempt to synthesize but is not substantial to the project. Research method is not well-discussed and lacks vital information.	The paper fails to show the intended research gap. There is also a lack of coherence in the introduction, objectives and statement of the problem. The objectives are unclear and only partially related to the scope of the project. Review of related literature and studies lack structure and cohesiveness. Sources are solely online/website. There is no synthesis to integrate the literature. Research method is vague and does not provide clarity on what is to be done to develop the project.	
Use of illustrations, graphics	Clear and relevant illustrations are used to provide clarity. All are thoroughly explained and cited.	Most illustrations used are clear and relevant to the concept presented. Most are thoroughly explained.	Illustrations are provided although some are not clearly explained in the paper.	Some pictures are	Illustrations are not readily understood and not relevant to the discussion. Sources are not cited.	

Supporting Literature and Research	Thorough and relevant	Less thorough but still substantial and relevant	Adequate; relevance made clear	Insufficient; relevance not always made clear	Irrelevant, missing, or relies on assertion rather than research	
In-Text Citations	All sources are accurately cited in the proper APA format. A substantial number of in-text citations are included to strengthen points in the paper.	All sources are cited but a few are not in the desired format. There is a considerable number of in-text citations.	Most sources are cited but many are not in the desired format. There are few in-text citations provided.	There are few in-text citations and most are not in APA format.	Lacks in-text citation. APA format in citation is not utilized.	
References	All sources are listed in APA format. There is a variety of literature and related studies used to enrich the discussions.	Most sources are listed and follow APA format. There is a variety of literature used.		Some sources are listed and follow APA format. There are limited references used, some are online sources,	Lacks variety of sources and did not follow the APA format. Most references are retrieved online.	
DEM Thesis Format Compliance	Full compliance with BT Thesis Formatting Standards	Complied with most of the BT thesis standards with few deviations	some mechanical and usage errors, but not severe enough to interfere significantly with the writer's purpose	mechanical and usage errors which interfere with the writer's purpose	Did not comply with set standards for BT thesis
